=====

Hi Everyone,

The date of the Spring AAPT Hawaii Section Meeting has been changed from Saturday April 22 to Saturday April 29. This change was made to avoid conflicts with the UH Institute for Astronomy Open House, which takes place on Sunday April 23.

At the Spring AAPT meeting, James T. Potemra (International Pacific Research Center) will give a talk titled "Learning about the Ocean from the Pacific Islands Ocean Observing System? (<http://pacioos.org>). In addition, there will be time for sharing teaching ideas and demos. Please let me know if you have ideas or demos to contribute. A tentative agenda is shown below.

Thanks and see you at the meeting,

Matt Cochran
