1 Dec. 2017

Attendance at the 5 Nov. Physics & Astronomy Open House was considerably less than in previous years. Part of the reason was the conflict with the VEX Robotics Competition which was held at Campus Center. We can avoid this conflict by scheduling the Open House later in November.

Other differences from previous years were having the event on a Sunday (taking advantage of free parking) and in the afternoon. Previous events were on Saturday mornings. We would appreciate your opinions about scheduling for the future. Please respond to the questions below.

Mike

- 1) What day do you prefer?
  - a) Saturday
  - b) Sunday
  - c) weekday (difficult because of UH classes)
- 2) What time of day do you prefer?
  - a) morning
  - b) afternoon
- 3) Would it help to have UH students visit your school and encourage students to attend the Open House?
  - a) yes
  - b) no
  - c) unsure
- 4) Any other comments?
