APS Far West Section meeting in Hawaii on 19 Jan. 2019

The American Physical Society Far West Section is planning to have a one-day meeting at UH Manoa on 19 Jan. 2019. The program will be developed over the summer and we hope to include presentations about current research, practical ways to improve physics education, and opportunities for internships for students and teachers. If there is sufficient interest and the one-day meeting is successful, the Far West Section may bring its Annual Meeting to Hawaii in 2020. For more information about the American Physical Society, see [www.aps.org](http://www.aps.org) [www.aps.org/units/cal/index.cfm](http://www.aps.org/units/cal/index.cfm)

Please respond to the survey below. We would like responses from teachers on neighbor islands as well as those on Oahu. Send your response to [mdj@phys.hawaii.edu](mailto:mdj@phys.hawaii.edu) -- especially if you responded to the previous survey. Note that the meeting date is different from that in the previous survey. We anticipate that people coming from neighbor islands will come to Oahu early on 19 Jan. and spend the evening on Oahu. Some support for airfare and lodging at the East-West Center is available for a limited number of teachers and students.

- 1) Would you be likely to attend a one-day meeting on Saturday 19 Jan. 2019 at UH Manoa?
- 2) If you would like to make a presentation, please indicate a title. An abstract will be necessary later.
- 3) Indicate if you would be coming from a neighbor island and whether any students would be coming.
