## SLICE OF PI

sliceofpicropped

A?blast of winter weather will soon blanket those of?us in the Northern Hemisphere under a layer of glimmering snow, if it hasn't already.?

But how much do you really know about the fluffy stuff? Why is snow white, given that water is clear? Why do snowflakes always have a hexagonal shape? Is it really true that no two snowflakes are alike???

Grab a cup of hot cocoa and learn some frosty factoids about?these?crystalline wonders.
